What about the CCI in Poland ?

CCIC Public Semminar, Tallinn
15.12.2022

Elżbieta Wielechowska

Member at buildingSMART Poland
Member at CCIC Technical Committee

Anna Rydzy

COO & Board Member at buildingSMART Poland
Member at CCIC Board of Trustees

Our classification journey

- **02.2019**
The buildingSMART Poland Association is established; start of BIM classification research within productROOM

- **02.2021**
First on-line seminar: „Searching for classification" held by buildingSMART Poland productROOM & CCIC members

- **12.2019**
Presentation at CoClass International Information Meeting, Brussels

- **12.2020**
buildingSMART Poland becomes the member of CCI Collaboration

- **03.2021**
Presentation: „Do we really need a common language in construction?" at the WDBE on-line event

- **09.2021**
Participation in Tallinn Digital Summit

- **09.2022**
On-line meeting about CCI, CCI-EE development and the MVP idea for the creation of CCI-PL version.
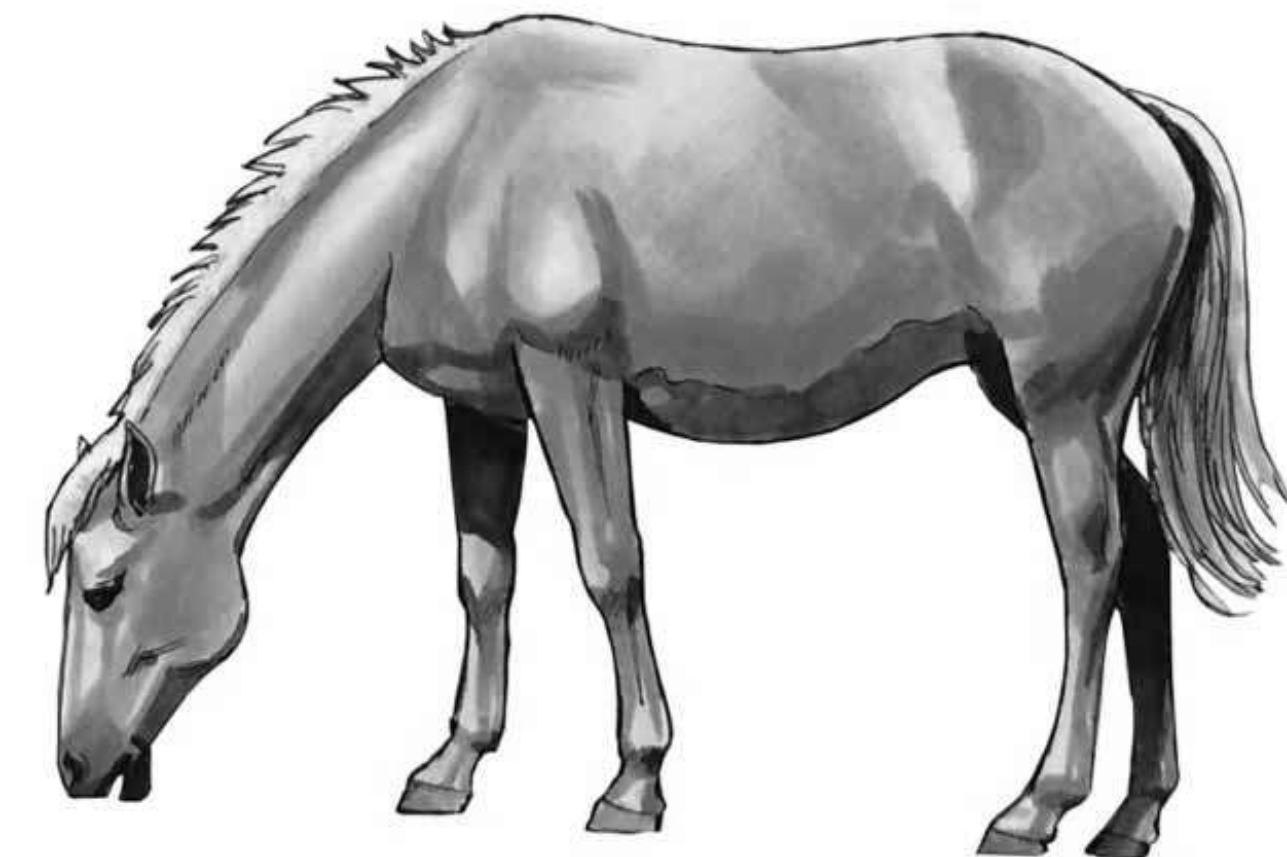

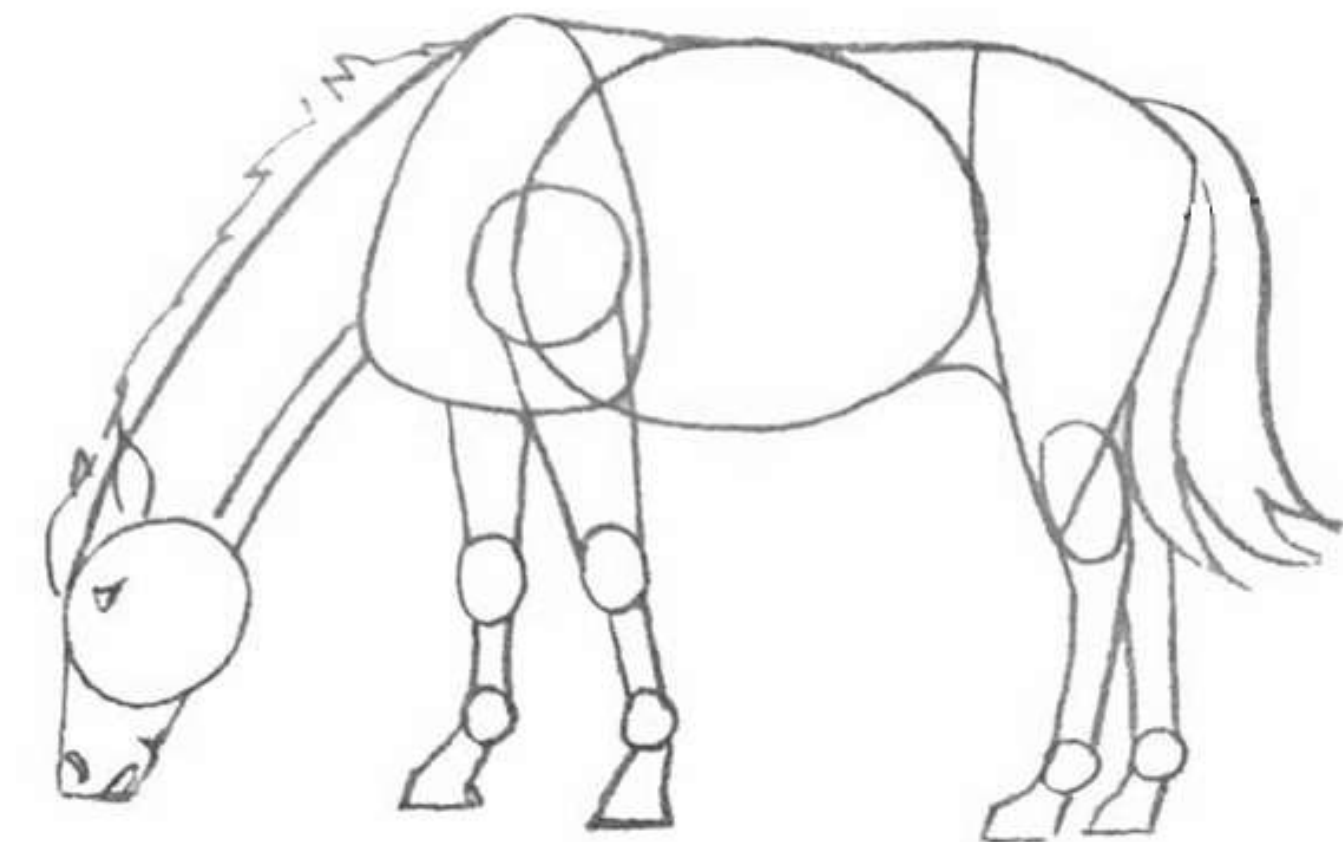

<CE> RA, road

Bottom-up idea of CCI-PL development

**CCI-PL as a minimum viable product (MVP)
based on CCI core and EN version of CCI-EE**

• On-line classification tool: www.klasyfipedia.org.pl

• Information materials: What is CCI?

• Technical materials: How it works?

• Official statement: Why should we use it?

Main goal: popularise this standard in Poland and
obtain funds to develop and maintain CCI-PL complete
national classification, availble as an open standard

Activities on the ministry level

BIM Task Team

- **04.2022** - A team of BIM experts was established in Ministry of Economic Development and Technology. Main goal: prepare strategy of BIM implementation in Poland.

- **07.2022** - The national classification as one of the strategic elements of BIM implementation. The classification project sheet with an indication of the CCI standard was developed.

- **10.2022** - Meeting at the Ministry with members of buildingSMART Poland regarding the CCI classification and its possible implementation in Poland.

- **2023 plans** - Classifiaction task team will be established as a support for the main BIM team. Members of buildingSMART Poland are candidates for this team. The task won`t be to create the content of the national classification.
